Soldiers' Aid Society.

subscription.

The ladies of Perrysburg met at Spafford's Exchange, on Saturday last, and organized a society to aid the volunteers. We were unable to be present in person, but are furnished with a minute of the procedings by our better-half. The society was organized by electing the following officers:

President-Mrs. JARVIS SPAFFORD. Vice President-Mrs. G. Brach. Treasurer-MRS. H. P. AVERILL.

Secretary-Mas. A. HALL. An Executive Committee of fourteen was appointed, as follows :

Mrs. M. Hall, Mrs. Bradford, Mrs. Dustin. Mrs. Price, Mrs. J. N. Wescott, Mrs. G. Powers, Mrs. Perrin, Mrs. Wallace, Mrs. Hatch, Mrs. Peck, Mrs. W. Ikison, Mrs. Brown, Mrs. F. R. Miller and Mrs. Houston.

The duty of this Committee, or more properly speaking, Board of Directors, will be to solicit contributions, "cut out" and apportion among those who desire to take a hand in this very patriotic work, such articles as may be contributed and bought to make up. We hope and have reason to expect that the efforts of the Directors will meet with a hearty co-operation by our citizens, and that Perrysburg, population considered, will occupy a "front seat" on the benevolent list. The ladies of the sur rounding country are also respectfully invited to participate in the good work. Contributions will be received as usual at the Exchange. As the gallant 21st has made a call upon us for hospital stores, it would probably be well for the people to conform their gifts as much as possible to articles suitable for sick and wounded- hough usdoubtedly articles of almost all kinds will be acceptable. We give the following description of articles most neded: Blankets for single beds; quilts of cheap materia', about seven feet long by fifty inches wide; knit woolen socks; woolen or Canton flannel bed-gowns, wrappers, under shirts and cushions for wounded limbs; slippers.

Delicacies for the sick-such as farina, arrow-root, corn starch, cocoa, condensed milk and nicely dried fruit-can be advantageously distributed by the Commission .-Jellies should be carefully prepared to avoid fermentation, and most securely packed .in packages heretofore sent the commission, by the breaking of jars and bottles. Over every vessel containing jelly, strew white stout paper (not brandied) over the mouth. Jellies sent in stone bottles arrive in the best condition, and there is no difficulty in removing their contents for use. Every bottle, etc., containing jelly should be labelled. Aromatic spirits and waters, light easy chairs for convalescents, nicely made splints for wounded limbs, chequer and backgammon boards, and like articles for the amusement of wounded men, books for desultory reading, and magazines, especially if illustrated, will be useful.

All articles should be closely packed in wooden boxes, or in very strongly wrappebales, and clearly directed. On the top of the contents of each box, under the cover, a list should be placed, and a duplicate o this list should be sent forward by mail, as soon as it is learned where and who to send

The 67th Regiment.

The company which is being formed at this place, for the above regiment, is now nearly full, and Capt. Spafford in orms us w.ll probably go into camp at Tole lo about the last of this or the first of next week .-The efforts of the Military Committee of this county, to raise recruits, have been all that could be asked by the most patriotic. Al ready we have one company here, nearly full, one at Gilead, fast progressing, and still another in the region of the Ridge for the regiment at Fremont. And all these companies will be mostly filled by the mea of this county-making an aggregate repreover one thousand soldiers.

P. S.-Since the above was in type a portion of Capt. Spafford's company has gone might as well be nailed up in the Court House as THE LADIES' REPOSITORY, Nevember 1861; Poe & to camp. They left here Wednesday morn- published in the Independent. Very few have ever ing. It may not be out of place here to mention that George Null, Esq., of this place, has received a commission and has gone to work to raise a company. Quite a quent list, and its circulation could be increased at Seat of War; Worship of Our Own Will; Great number of Germans have already signified a great expense to the people, who would have to Triumphs of the Gospel; The Minister's Visit; their intention of going with him.

Post-route Convention.

The convention called to meet at Toledo, on Tuesday last, has been postponed for three weeks. We, with quite a number of others from this county went down with a view of recommending a daily mail between here and Portage-to leave that place in the morning, aud returning, leave here after the arrival of the three o'clock train, in the afternoon. Parties are ready, we understand, to carry the mail for the receipts of the three post-offices outside of Perryaburg, and Gen. Ashley has assured us the Department will grant the request, if it be put to no expense in the premises. The importance of a daily hack ling between Portage and this place has long been felt by the business community of the county, and we are confident it will soon be made to pay a han some profit to those engaged in the enerprise. There is also another route upon which we should like to see at least a s.mi-weekly through mail. We allude to the Perrysburg and Fremont route. Our friends on the Ridge labor under great disadvantages, by the present arrangement, and we are confident they will unite in any effort for a regular through mail from this place. We tope to see a fair representation of the friend who favor a change in these routes, at the conven-

Common leas Court.

(Communicated.) The Wood County Printing.

MR. Epron:-The writer of this communication reverance, an article of great legal depth and rependent. The learned, astute and erudite advice of the 21st Regt. that firm has proved, to his own satisfaction, that the whole system of public printing, as practised in cannot publish his Tax List, nor buy a couple of dollar's worth of tax receipts, and an Auditor cannot publish his Delinquent List, or buy a duplicate, without giving due and proper notice to all the book-sellers, stationery peddles and newspaper publishers in the State, so that each and every one of us common lawyers, as well as several of our their application strictly to the sick and woundbrethren in other places were at first inclined to ed. treat the argum at with derision, and to impute it to that very sharp legal gentleman known as Higgins' right bower when spades are trumps-the gentleman who gets up such fine points of law that the court can't see them, and he can't see them; but he knows there is a point somewhere, and the great question is whether the point has got stuck in his person in some uncomfortable spot: (some think it has by the way he wiggles:) or whether his point

is that celebrated little end of nothing whittled Of course, however, we were soudeled on reading last week in the Independ at that the law originated here, and was drawn by Judge Cook for Clark's benefit. Of course, if the law was drawn here, we are the ones to know what it means-what the irtent of the Legislature was, and all that. No matter how obscure the terms of the law are; no matter whether by its terms it has any reference to the Auditor's and Treasurer's publication of their lists whatever-it is enough to know that Judge Cook ter.

Now, it happens that Judge Cook never drew it for Clark's benefit, nor did the law originate here. One section of the law, as it originally passed, provided in effect that the law should apply in Hamilton county only. It was not till 1858, and after poor Clark was dead that the section limiting the application of the law to Hamilton county was repealed, and the operation of the law extended throughout the State.

Judge Cook offered a resolution in convention that the Auditor and Treasurer be requested to give their lists to the lowest bidder. That is all there is of that.

When the law was first passed, some numbskull took the same view of it in Cincinnati that Higgins and his legal adviser here do, and endeavered to oblige the Commissioners to take the same course that Higgins wants them to take here. The question upon the law was submitted to the well known Julya Spancer, of the Superior Court of Cincinnati, one of the brightest legal min is the State has ever produced. Judge Spencer decided that the Auditor, Treasurer and Sheriff were not within the operation of the statute, so far as regards the publication of newspaper notices required of them by law The law relative to the Treasurer is that he shall publish his tax list in some paper printed in the county: - so of the Au litor; - so of the Sheriff. The drawers; small bair and feather pillows and law quoted by Higgins would require this to be given to the lowest bid for anywhere in the Sorte. 1 Higgins' law applies, and the editor of the Toled Times, or Napoleon North-West bid lower than our county editors, the list would have to be sent to them, for the law requires it to be given to the lowest bidder, without reference to where be lives. Of course no such farce was laten led by the Legislature as to have a tax list published, where none of Many articles of clothing have been injured those interested would see it. Yet the law, if it applies at all, means this, for it is positive in its termand opens the list for competition to all of the pen-

> ple of the State. Should the Au liter or Treasurer need at any one time stationery or printed forms of the value of over one hundred dollars, then proposals must be published, and every man in the State is authorized to ent r the lists. In such cases it is well known t at the heavy establishments of Cleveland, Columbus and Cincinnati can underbid any local printer, and the Commissioners would be sadly deficient in their duty if they failed to avail themselves of the bes market. As it is, for the Tax Duplicates, Dockets, Records, &c., our Commissioners have always s n where they could be procured the chemest. On County Clerk gets his blanks from Columbus a d Cleveland - going to the cheapest market and Luying them at the lowest cash prices. S metimes when the county officers get out of blanks they pro cure ten or fifteen dollars worth at the office of the county paper. The cost of advertising for these would be more than the artfeles would come to. In a city like Cleveland or Cincinnati the item of Treasurer's receipts for one year would probably

eve. e l'on sthousan I dollars, while here fi ty to one hundred dollars purchases enough for a year Again, the law quoted by Higgins cannot apply to the case of the tax lists and Sheriff's sales, for the two laws would directly conflict, and repeals by implication are not favored. The law as to the tax list, &c., obliges the Treasurer to publish them in a p per printed in the county: the other law gives the printing to the lowest bidder in the State, We mus look at the object of the law requiring tax lists, &c. to be published. It is to place those lists before is a sparkling gems of literature. It continues, as the property holders of the county-not of some oil . | it has promised, to be a war magazine—the articles er county, but of the county where the property is. bearing either directly or indirectly on the affairs of How shall this be done? Manifestly, by publishing our country, are as follows: Health in the Camp: in the paper having the largest circulation in the Why has the North Felt aggrieved with England? county. It is a matter of public interest, and people should be able to see it. Now the editor of a little six-by-nine sheet like Higgins', with only a baker's dozen of subscribers, might well afford to underbid an established paper, with subscribers numbering by the hundreds. But the law contemplates the leaving of this matter discretionary with sentation in the service, for Old Wood, of its officers, so that the lists may be published where it will accommodate the greatest number of the people. For all practical purposes the tax list heard of it, except through the Journal, and fewer

> pockets of the people. If Mr. Higgins and his legal adviser are right, then certainly the officers and editors throughout the State are wrong. Who has ever seen in Toledo Cleveland, or any other place, proposals for printing the delinquent list advertised?-or the Treasurer's list? Such a thing has never been heard of and assuredly editors in other places would have advanced this claim had it not been perfectly evident to every m in of common sense that it could never for a moment be admitted; and this, I may add, is so far as I can learn, the almost unanimous opinion of lawyers here and in Toledo.

When the call for a Union Convention was cirdrew it for Clark's benefit, and that settles the qu -sculated. Higgins thought it a good chance to make some political capital for himself and his hangersor, by throwing out a few of his contemptible insults upon various citizens of the county. He charged the Prosecutor with having made a falso report to the Attorney General: the Treasurer with having stole the county funds; the Auditor with having conflived at it; and both as having indirectly bribed the JOURNAL to cover up their rascality. The numinee for Prosecutor, he said, was notorious-1c incompetent, and was nominated by the "whisky interest." These charges were made without a scintilla of proof to sustain them, and none has ince been offered.

Some "scribbling scoundrel" has had the audacity to attack Higgins on his own ground. He finds that there are some men hereabouts who know his antecedents, and are disposed to drag them before the public in their true light, in retaliation for his mulitious, lying abuse. He declines to be unmask ed, and attempts to hide his m ral deformity and throw dust in the eyes of the puelle, by setting up

Who is Mrs. Wicelow!

As this question is frequently saked, we will simply say that she is a lady, who, for upwards of thirty years, how untringly devoted her time and talents, as a female physician and nurse, principally among children. She has especially studied the constitution and wants of this numerous class, so generally overlooked, or carsinally treated by the raculty in two many instances; and as a result of this effort, and practical knewledge, obtained in a lifetime spont as a nurse and physician, she has compounded a Scothing Strup for children testing.
